

June 20, 1958

Honorable George D. Clyde
Governor of the State of Utah
B u i l d i n g

Dear Governor Clyde:

There is herewith attached a Proclamation that would restore to the public the right of appropriation from the Green River. The request for this proclamation comes from the United States Bureau of Reclamation in order to permit them to file a new application to fully cover the Flaming Gorge Dam and Reservoir.

This proclamation has been discussed with the Water & Power Board and they will be prepared to file certain needed applications during the period of publication of this proclamation.

Your advice as to the date of official issuance of this proclamation will be appreciated and this office will then proceed with publication of the required statutory notice.

Yours truly,

Hubert C. Lambert
DEPUTY STATE ENGINEER
